DISCEFA

Brought to you straight from the sea

At our processing plants located by the main fishing grounds - Yucatan (Mexico), Dakhla, Agadir (Morocco) and Coruña (Spain) - our highly qualified personnel select the finest fresh octopus and then process and freeze it following strict Quality control procedures to provide you with a product that passes the most stringent standards with ease.

DISCEFA

... and the professional approach

Our whole range of products is supported by a wide commercial network offering a flexible service and guaranteeing on-time supply, without delay and in excellent conditions.

... of a genuine market leader

Our specialised area of knowledge, the effort we put into fine-tuning our systems, searching for the finest product and preparing it as part of a fully guaranteed process; these are the factors that have made us one of the leading octopus processors and distributors in the world.

With one specific objective: to provide the market with only the finest octopus

This is the goal that we at DISCEFA have been working towards day after day for the last 35 years with the dedication and professionalism that only a genuine specialist can achieve.

... with the finest quality

In our quest to satisfy the needs of caterers, retailers and consumers alike, we market different brands of deep-frozen octopus in all sizes and formats, using only recyclable packaging.
